

NEUROSCIENCE MAJOR
MUSIC AND CHEMISTRY MINORS
CELLO

CJ TYSON V

Primary Faculty:
Prof. Davidson

SENIOR THESIS: I AM DOING MY SENIOR THESIS IN NEUROSCIENCE WHERE WE ARE STUDYING LIFELONG MUSICIANSHIP USING ELECTROPHYSIOLOGICAL IMAGING.

My most memorable moments in Biddle are the late-night meetings after symphony rehearsal in room 069 with exec.

FOR FUTURE MUSIC STUDENTS:

BEING A MUSIC MINOR IS A GREAT WAY TO CONTINUE YOUR LOVE FOR MUSIC AND THE ARTS PAST HIGH SCHOOL. IT ALLOWS YOU TO EXPAND YOUR MUSICAL KNOWLEDGE WHILE AT THE SAME TIME ADDING FLEXIBILITY TO FURTHER YOUR STUDIES IN OTHER DISCIPLINES.

After Duke, I plan to take a gap year where I will work as an ocean rescue EMT on the beach and also conduct neurosurgery clinical research. After this year, I hope to continue in medicine and plan to attend medical school.
